PROFESSIONAL SUMMARY

Web Developer with **expertise** in **Laravel**, **Tailwind CSS**, and **MySQL**, **experienced** in building **functional applications** such as **library management systems**. **Successfully taught** 200+ students in web development through an **effective, Hands-On Coding** approach. **Proficient** in **Git** and **accustomed** to **Agile workflows** based on **modern architecture**. Holds **international certification** in **Ethical Hacking** (EC-Council) and **national certification** in **Database Programming** (BNSP). Currently **focused** on **mastering** the Laravel ecosystem to become an **adaptive, productive** Full Stack Developer, ready to **deliver high-value digital solutions**.

PROFESSIONAL EXPERIENCE

STIKI Malang - Indonesia

Maret 2017 – September 2020

Teaching Assistant – Educational Technology & Web Projects

- **Successfully taught** 200+ students in **modern web development** (HTML, CSS, JavaScript) from beginner to intermediate levels through a **structured** and **easy-to-follow** approach.
- Applied an **active and practical Hands-On Coding** method, enabling students to **immediately practice** and **understand real-world workflows**.
- **Guided** students in building **offline, responsive, and functional websites** as final projects that were immediately usable.
- **Directly involved** in debugging and performance optimization to ensure **high-quality, smoothly running results**.
- The program was **completed within 6 months**, with the majority of students achieving an **A grade**, proving the **effectiveness** of the teaching and the **quality** of outcomes.. [Link](#)

Detrindo - Indonesia

Augustus 2022 – Desember 2023

CMS & Digital Content Admin

- **Fully managed** a WordPress website, including **plugin updates, technical maintenance, troubleshooting, and content structure optimization** to create **SEO-friendly articles** that boosted search engine rankings.
 - **Actively handled** social media—from **visual design, post scheduling, and caption writing**, to implementing **engagement-driven communication strategies**.
 - Conducted **comprehensive performance analysis** (website & social media), prepared **reports**, and developed **strategies** to increase traffic and engagement. Executed the entire digital workflow **independently from A to Z**, covering content creation, design, CMS management, and digital communications.
-

PROJECT

Library Management - Eduwork - May 2025

[Link Project](#)

Built a modern web-based library system using Laravel 12, Filament 3, and Livewire 3. Features include secure admin login, role management via Filament Shield, dynamic book search, real-time loan tracking, and an interactive dashboard. The responsive UI is fast and user-friendly with Tailwind CSS.

E-Commerce - Eduwork.id - Maret 2025

[Link Project](#)

Developed a modern E-Commerce platform featuring an admin panel (CMS) built with Filament 3 to manage Brands, Categories, Products, Orders, and Users. The user-facing panel enables customers to register, log in, browse products, manage cart, checkout, and track orders. Utilized Tailwind CSS for a responsive UI and Livewire 3 for seamless real-time interactivity.

SKILLS

Technical Skills :

- **Frontend** : JavaScript, HTML5, CSS3, TailwindCSS, Bootstrap, Blade, Vue.js
- **Backend** : Laravel, PHP, MVC, Filament, Node.js, RESTful API
- **Database** : MySQL
- **Tools & DevOps** : Git, GitHub, VS Code, Wordpress
